## MR. LANSING'S MESSAGE

Amazingly, it's already March! Personally, I always look forward to seeing the calendar turn to March as the days are getting noticeably longer, temperatures tend to be milder and all of the other signs that spring is not too far off. There are other signs of change at Chester Ronning School too, and you may have noticed that the replacement school construction is really taking shape!

Construction of the new building is on target and BRSD expects the replacement school to be ready in the fall of 2021. Of course, there are many things that will need to continue going right to keep things on track but there certainly is a lot to be excited about, when it comes to the new school building. In the coming months, CRS staff will be very busy preparing for the move, planning for ways to honour and celebrate the current building and providing our community with opportunities to see the new facility. If you are curious, we have been working with our school division leaders to provide some information on our school website about the plans and progress of the replacement school construction and we will be sure to update this page and to send new communications as details and dates are finalized. If you are interested, please visit: <https://cronning.brsd.ab.ca/replacement-school>

In the last newsletter, I had promised more information about a second round of parent-teacher interviews, and I am pleased to share that we have set the week of March 22 for these PTIs. With safety protocols still in place, please expect a very similar format to what we used way back in early October. At that time, most of our families preferred a simple phone interview but, when staff begins scheduling PTIs in the next week or two, please let your child's teacher know if you would prefer to meet via video-conference.

Take care!

Reid Lansing, Principal
